ASSOCIATION

> *Why Metrommeet?*

Metrommeet, the International Conference on Industrial Metrology is the only place where you can find quality professionals sharing and innovating together.

Sponsored in previous editions by Zeiss, Innovalia, Renishaw, Faro, LMI Technologies and CIN Advanced Systems, Metrommeet has become an international reference conference.

Innovation

A unique and exclusive networking space where the latest developments in the sector will be presented. The one-to-one relationships make Metrommeet the ideal environment for numerous industry professionals to learn about the latest metrology solutions.

Content

Every year Metrommeet listens to its attendees and speakers in order to continue offering the best content. To achieve an enriching and innovative program, Metrommeet counts on speakers from all over the world who share their know-how and expertise.

MetroLabs

During the Coffee-Breaks, Metrommeet organizes MetroLabs, small product and technology demos that last around 20 minutes and allow the speakers to learn about new solutions for Quality management.

Network

Metrommeet gathers every year more than 100 managers from the Quality sector. Discover first-hand the needs, concerns and discussions that your potential customers have and build a one-to-one relationship with them.
